

DRACO Series

Engineered for cannabis multilayer production

The DRACO is a high-efficiency, multi-bar LED luminaire designed for vegetative stages in multilayer cannabis facilities. With a balanced spectrum, uniform photon distribution, and slim form factor, DRACO ensures dense, compact growth with maximum consistency across layers.

CREE LED

0-10V & MyRED dimming options

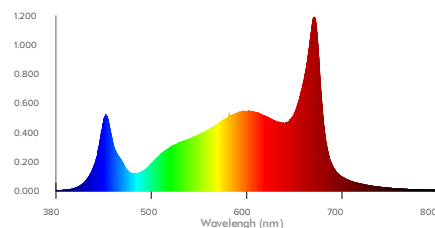

Optimal LED placement

Foldable design

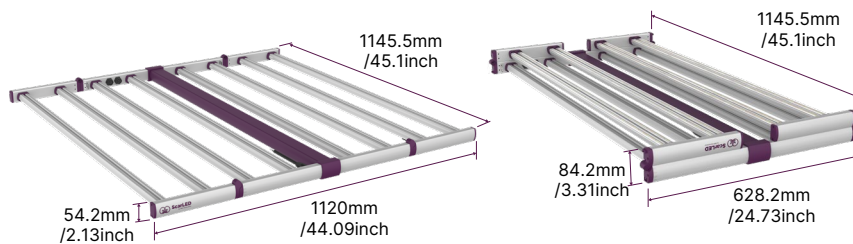

SPECIFICATIONS

Product designation	DRACO 820
Input Voltage	AC220-277V 50/60Hz
Input Wattage	820W
PPF	2624 $\mu\text{mol/s}$
Efficacy at max power	3.2 $\mu\text{mol/J}$
Dimensions	1145.5*1120*54.2mm
Dimming Control	0-10V, MyRED controllable
Rated average lifetime	LM90B10 / 50 000hrs
IP rating	IP65
Max ambient temperature	40° (104°F)

0-100% MyRED Control

Dimensions

Accessories

Pigtail input dimming cable (100mm/0.33ft)

Dimming cable link (1850mm/6.07ft)
